CORIUM Matt Level Guide

	Matt Level 1 (1 -5 Gloss Unit)	Matt Level 2 (5 -10 Gloss Unit)	Matt Level 3 (11-15 Gloss Unit)	Matt Level 4 (16 -20 Gloss Unit)	Matt Level 5 (21-30 Gloss Unit)	Matt Level 6 (31 -40 Gloss Unit)
CX 1050	100	80	60	40	20	0
CX 1000	0	20	40	60	80	100

For guidance only. The proportion of thinner and spray application may impact the gloss level.

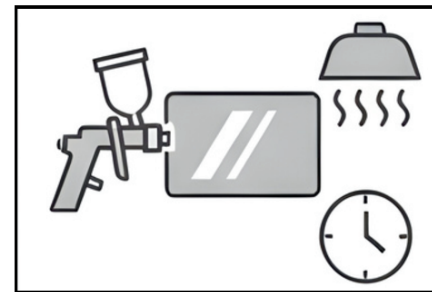

Matt Level Matching Procedure

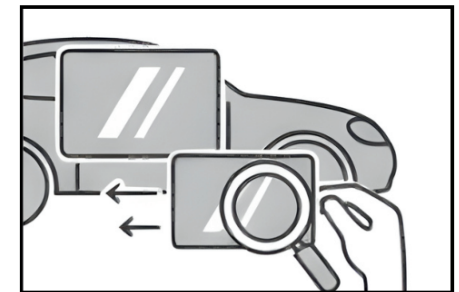

After spraying the basecoat on the repair area, apply the same basecoat onto a spray-out test panel and allow proper flash-off.

Mix CX 1000 & CX 1050 according to the recommended ratio. Stir well before mixing, then adjust the matt level as required using the appropriate formulation.

Apply the matt clear on the test panel. Allow the panel to fully cure before evaluation.

Compare the cured spray-out panel to the original surface under suitable lighting. Adjust the matt level if necessary and repeat until the closest match is achieved.
